1. Introduction & Getting Started

1.1 What is Basma App?

Basma App is the mobile companion to BasmaCP Admin. Everything a school sets up in the admin panel — rosters, timetables, exams, behavior records — becomes something a teacher, moderator, parent, or student can see and act on from their phone. The app adapts its entire menu to whoever is signed in: a parent never sees a teacher's attendance tools, and a student never sees an admin's roster screens.

1.2 Signing in

Enter your username and password on the sign-in screen and select **Sign in**. The app remembers accounts you have signed into before, offering a quick-switch row above the sign-in form the next time you open it.

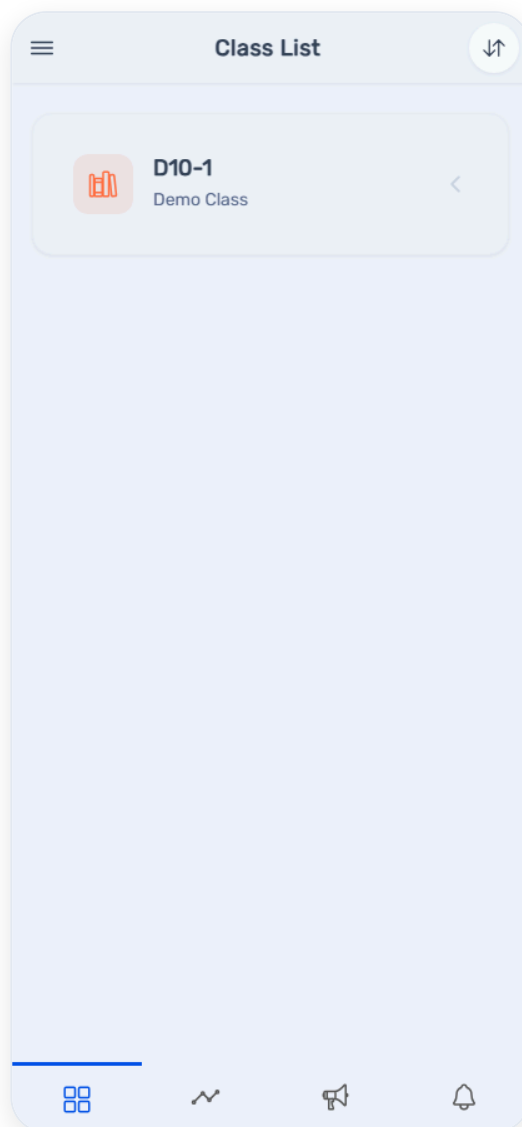

Fig 1.1 — The sign-in screen.

1.3 Switching language

Open the side menu (the icon in the top corner of any screen) and use the **Language** selector near the top. The entire app — including layout direction — switches immediately; Arabic renders right-to-left, English left-to-right.

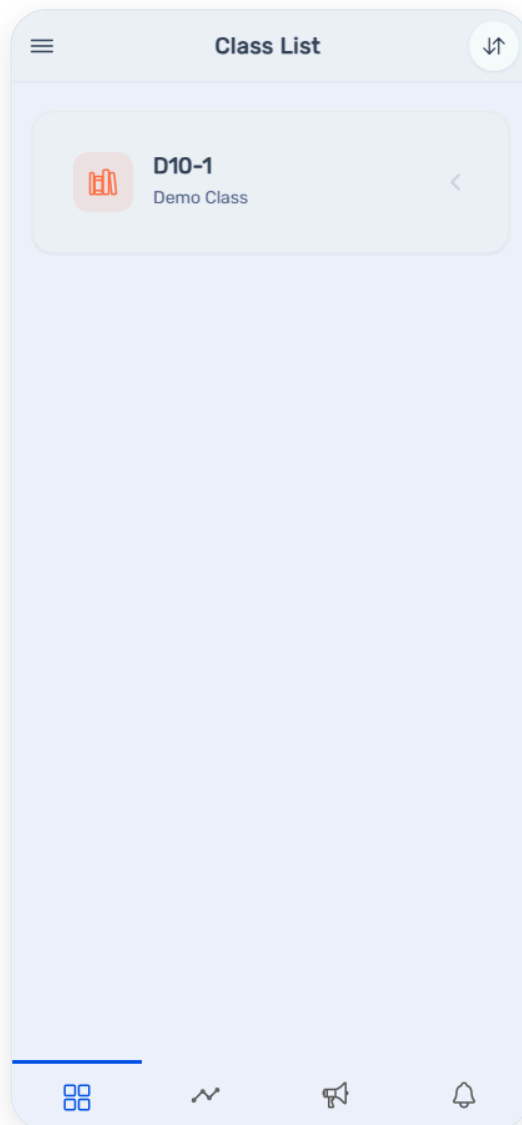

Fig 1.2 — The side menu, with the language selector near the top.

1.4 Your menu depends on your role

The rest of this manual is organized by role, since that is how the app itself is organized — open the chapter matching your own role (Teacher, Moderator, School Admin, Parent, or Student) rather than reading front to back.

2. For Teachers

2.1 Your class list

The home screen for a teacher lists every class you are assigned to. Select a class to open its roster.

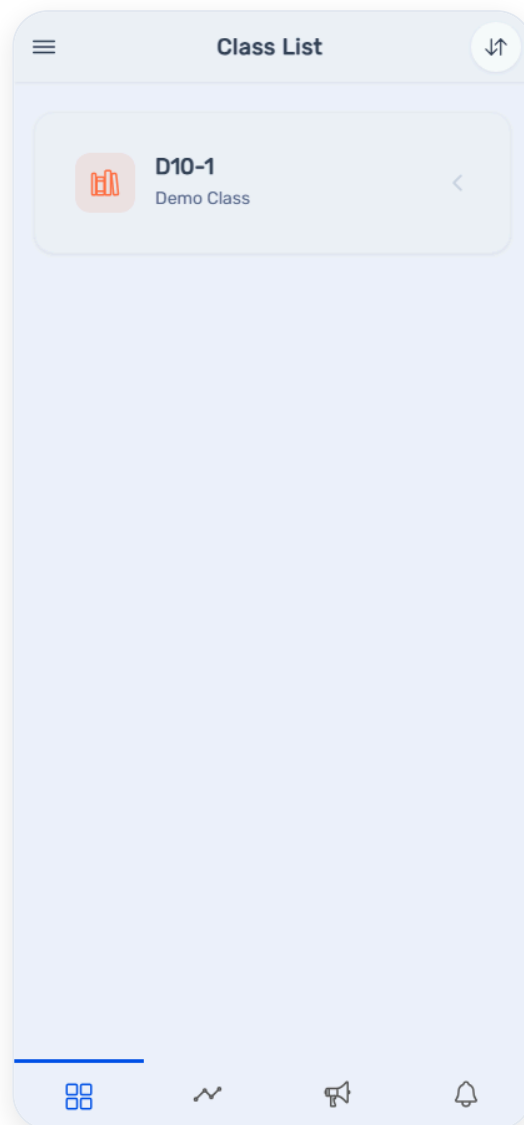

Fig 2.1 — Your class list.

2.2 Taking attendance

Opening a class shows its student roster for the current period, with a mark-present or mark-absent control beside each student. Two quick-action buttons let you mark the whole class present or absent in one tap before making individual corrections, and a running tally at the bottom shows how many students are recorded so far. Select **Save** once attendance is complete.

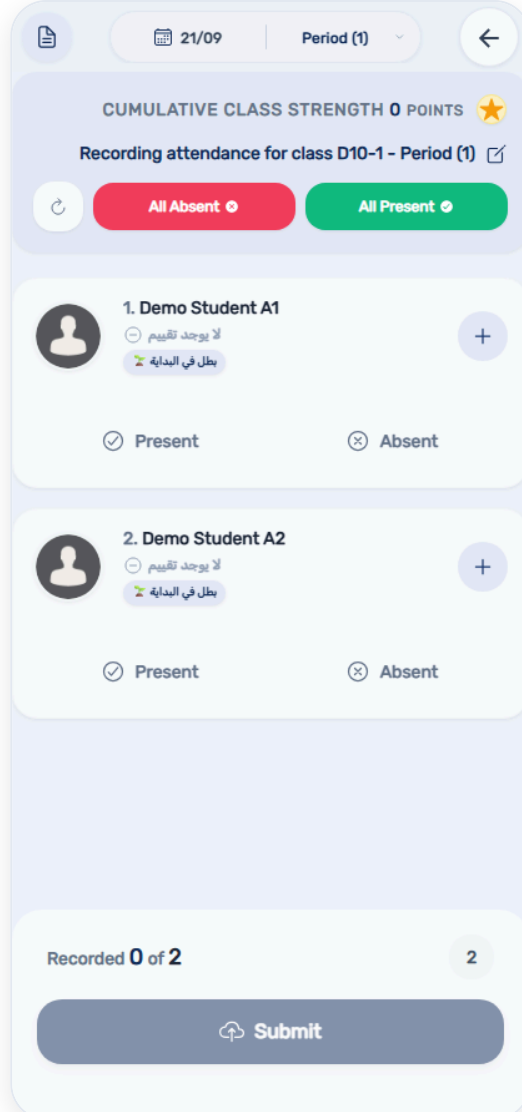

Fig 2.2 — Taking attendance for a class.

2.3 Viewing a student's profile

Select a student's name from the roster (not their photo, which opens a larger avatar view instead) to open their full profile — behavior level, title, and attendance history.

Fig 2.3 — A student's profile.

2.4 My Schedule

Your own full weekly timetable across every class you teach, grouped by day.

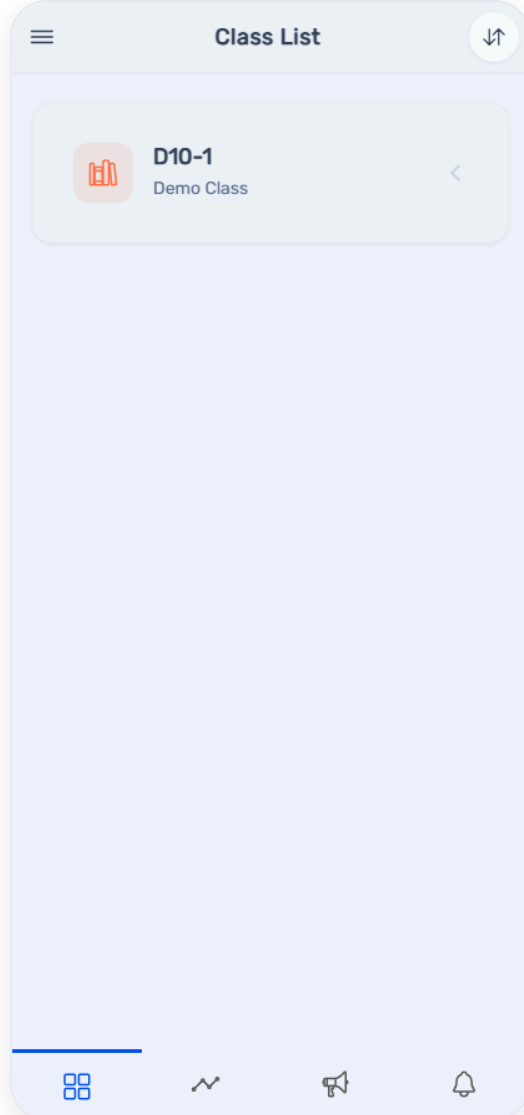

Fig 2.4 — My Schedule.

2.5 Coverage requests (substitute teaching)

When your school marks you absent, or asks you to cover for someone else, requests appear here needing your response.

1. Open **Coverage Requests** from the side menu.
2. Pending requests show the class, subject, period, and the teacher you would be covering for.
3. Select **Accept** or **Decline**. Declining immediately offers the period to the next fairest available teacher — you are not asked again for that slot.
4. Your response history is shown below the pending list.

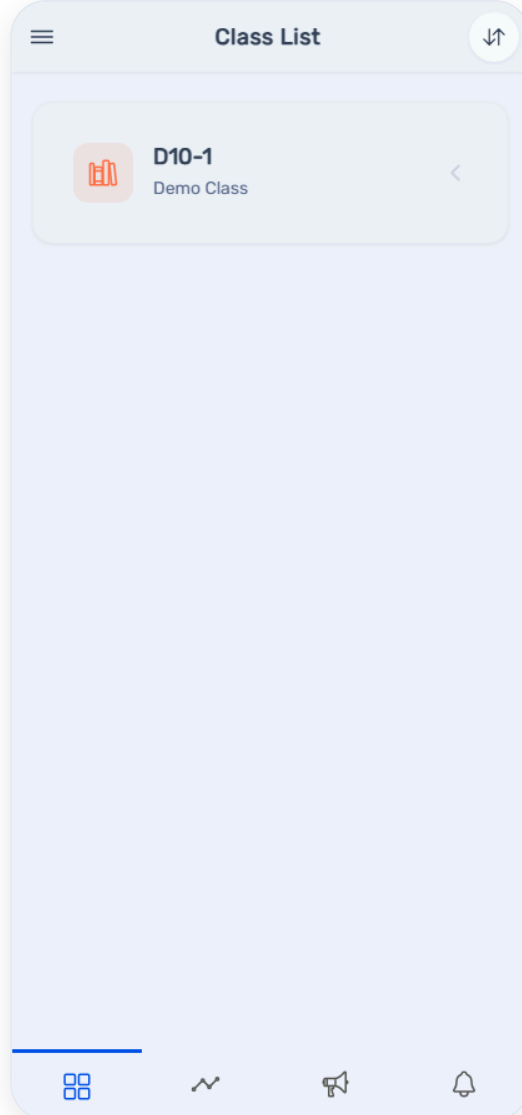

Fig 2.5 — Coverage requests.

2.6 Exam invigilation duties

A read-only roster of the exam sessions you have been assigned to proctor — date, subject, class, period, and room. Unlike coverage requests, invigilation duties do not need an accept or decline; they are a fixed assignment.

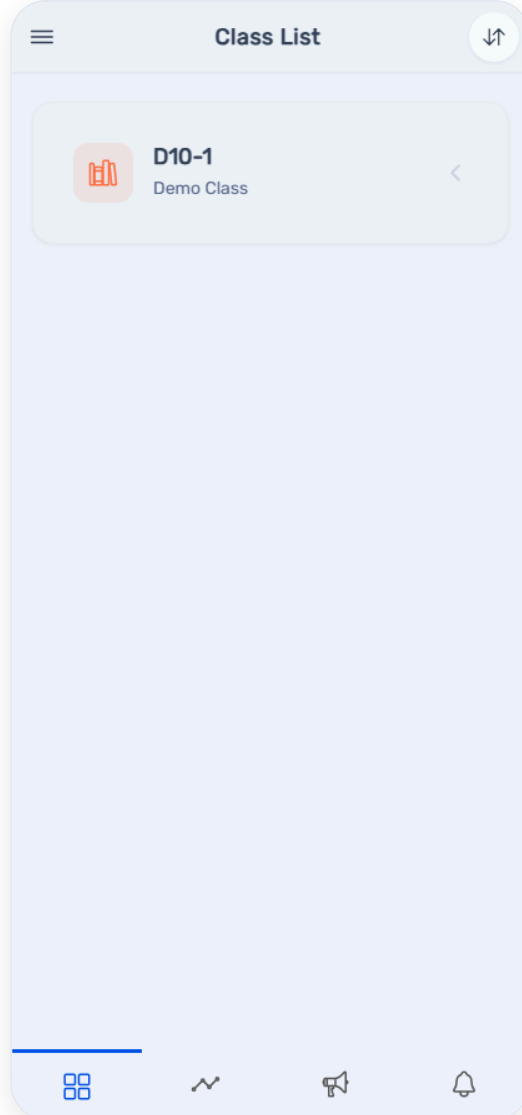

Fig 2.6 — Exam invigilation duties.

2.7 News, notifications & bulletins

Your school's announcements, your personal notification feed, and any circulated bulletins all have their own tab or menu entry.

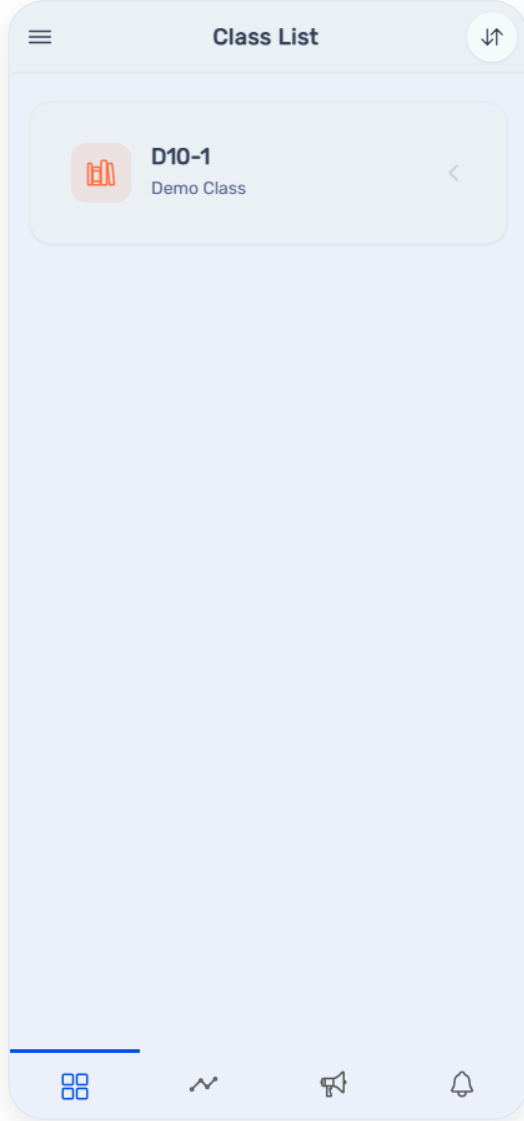

Fig 2.7 — News.

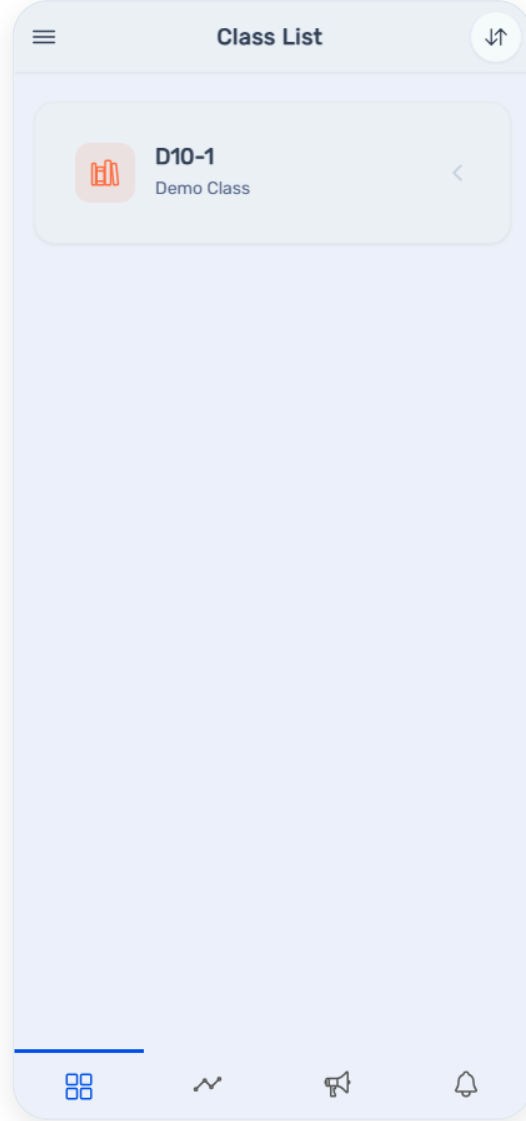

Fig 2.8 — Notifications.

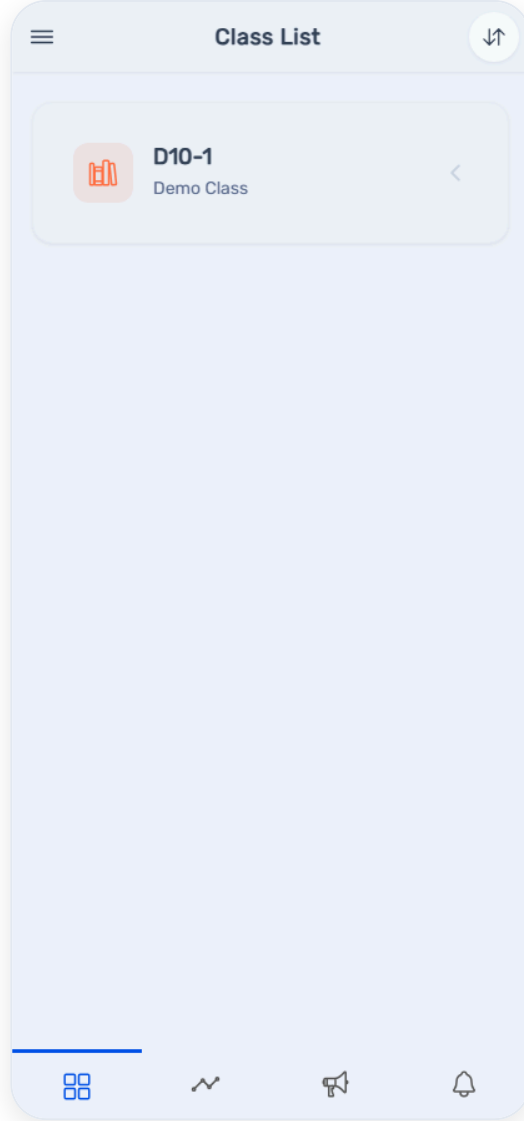

Fig 2.9 — Bulletins.

2.8 E-learning

Browse the video and document materials your school has published, organized by category.

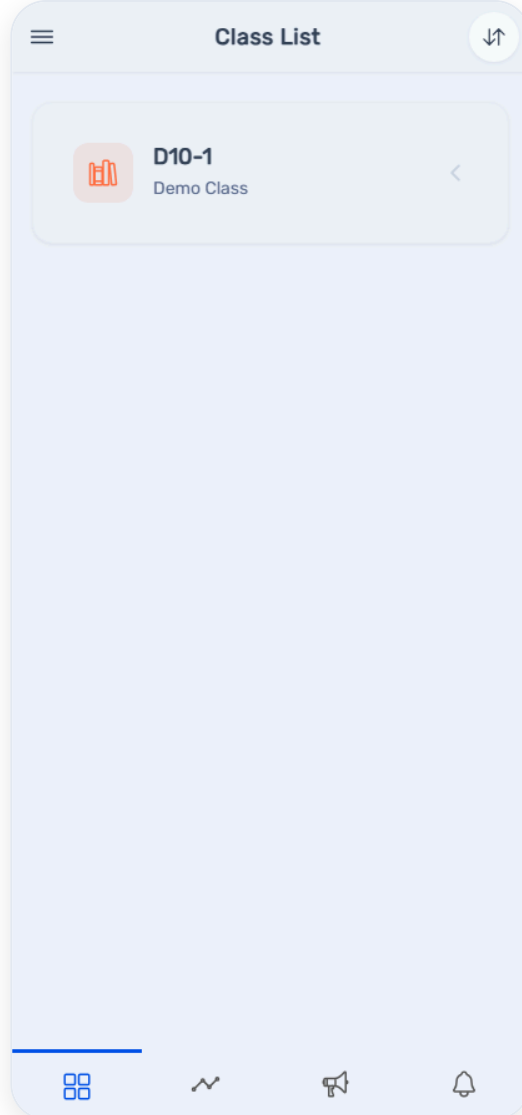

Fig 2.10 — E-learning.

2.9 Follow-up reports

A running list of the periodic follow-up marks you have entered for your students against your school's custom follow-up fields (for example homework completion or participation), plus a per-class summary view for reviewing marks across an entire section at once.

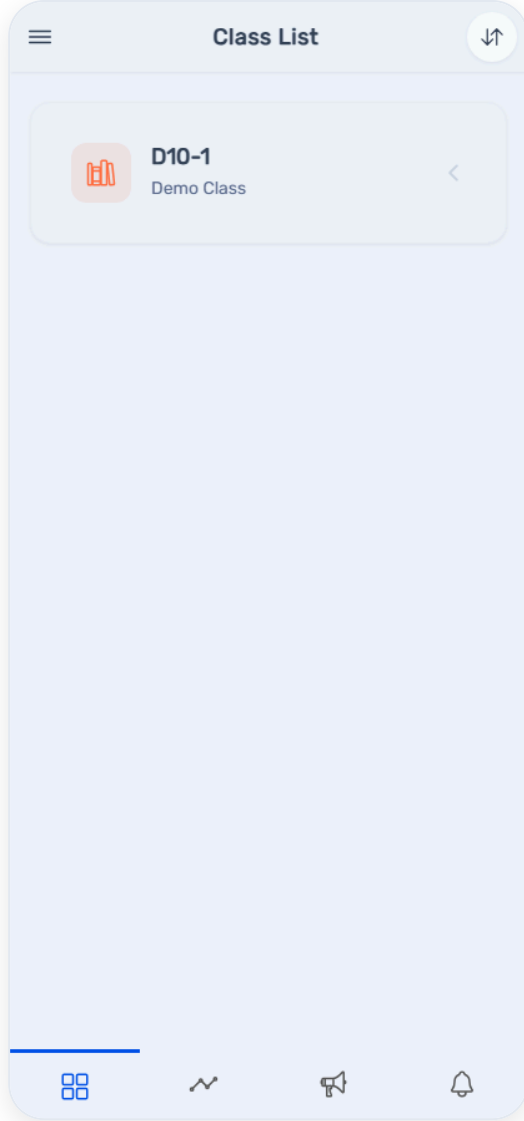

Fig 2.11 — Your follow-up entries.

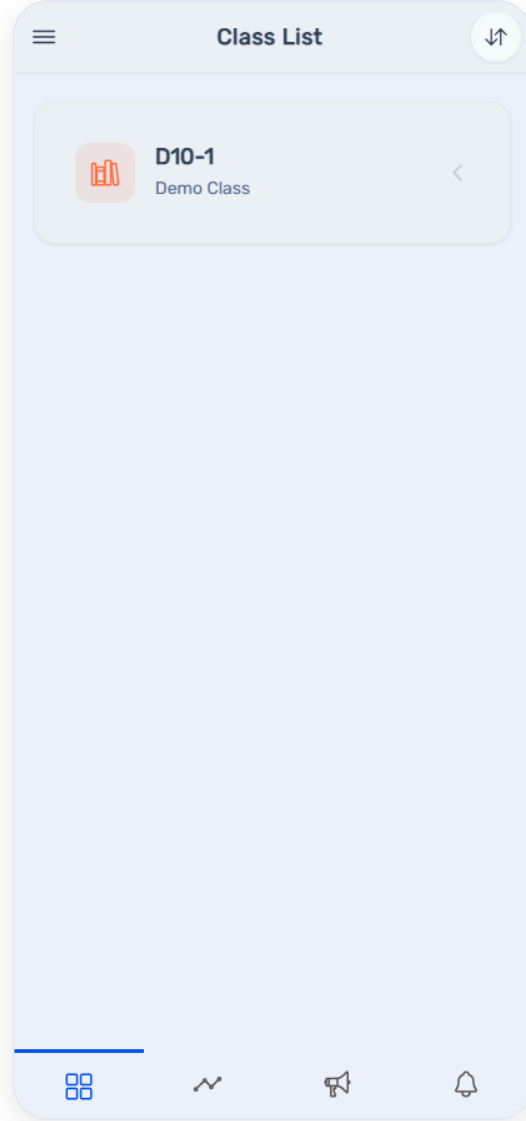

Fig 2.12 — Reviewing follow-up marks by class.

2.10 Settings, devices & account

Manage your profile, notification preferences, and the list of devices signed into your account from the side menu's Settings and Devices entries. The same menu also has quick links to the About Us and Contact Us pages if you need to reach Basma support.

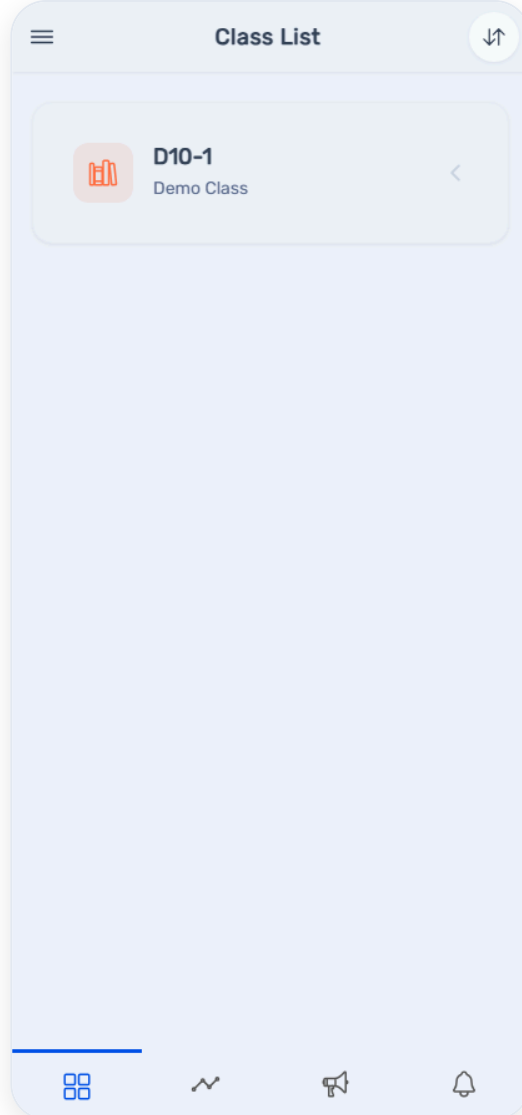

Fig 2.13 — Your signed-in devices.

3. For Moderators

Moderators see a supervisory view across classes rather than owning a single roster — you can review attendance, behavior, and warnings for any class you are assigned to oversee.

3.1 Class list

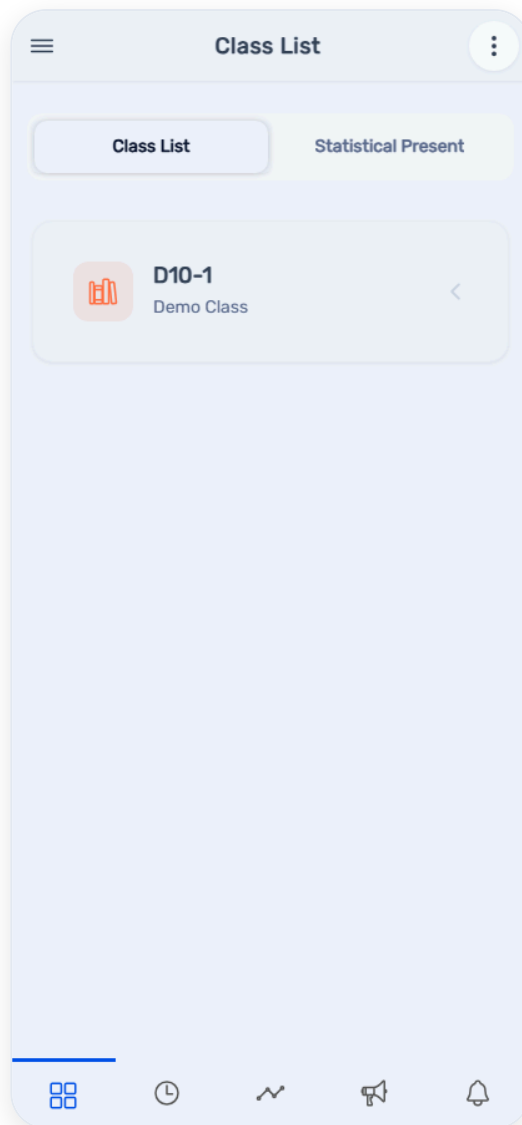

Fig 3.1 — Your supervised classes.

3.2 Delay list

Students marked late at the morning line, across every class you supervise.

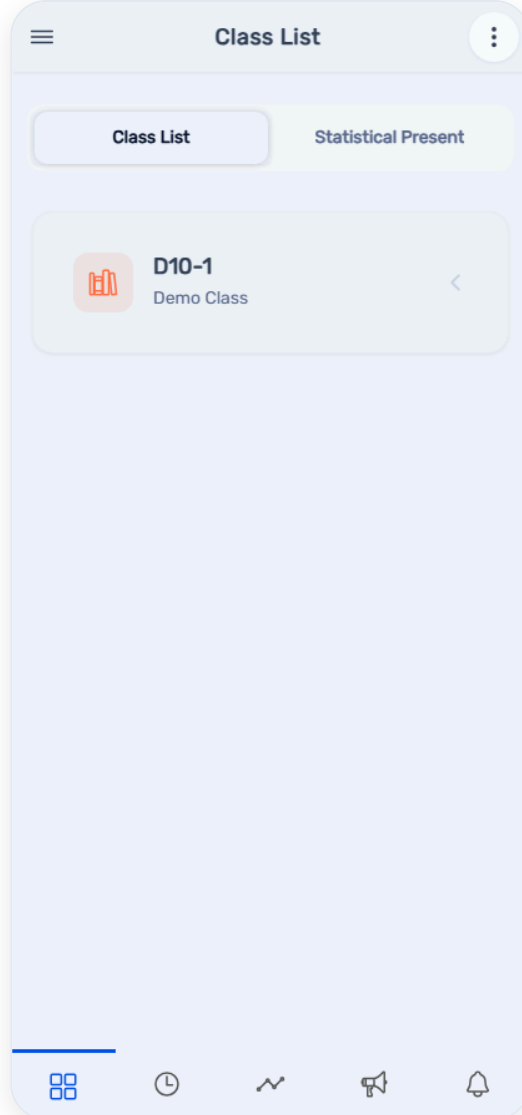

Fig 3.2 — The delay list.

3.3 Following up on students

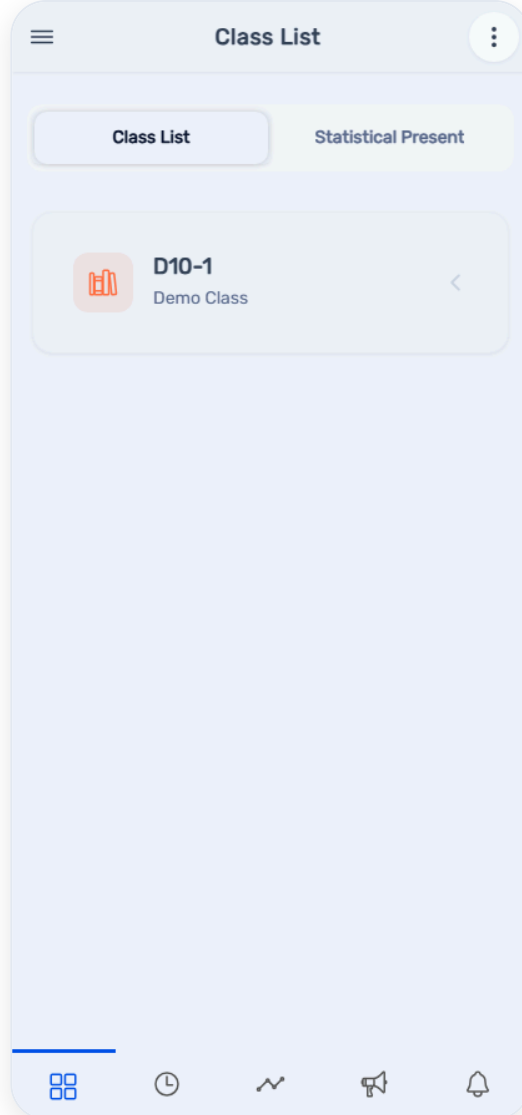

Fig 3.3 — Student follow-up.

3.4 Warning reports

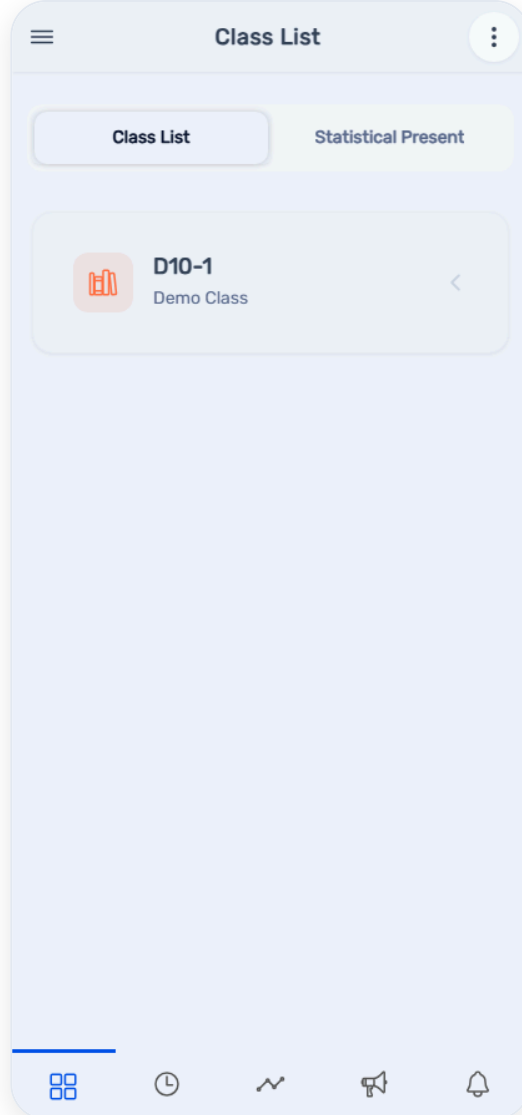

Fig 3.4 — Warning reports.

3.5 Absent students

A cross-class view of every student marked absent today.

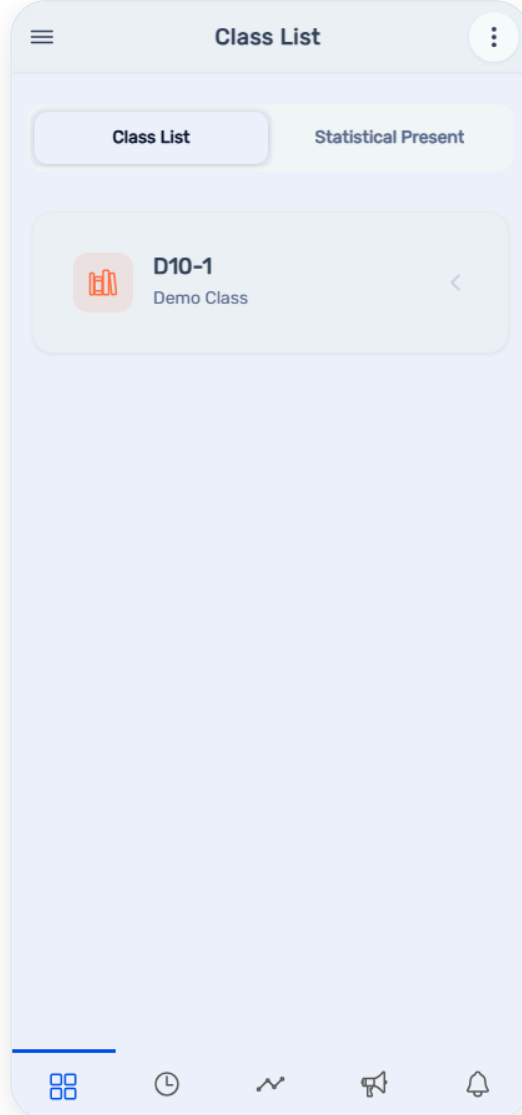

Fig 3.5 — Absent students.

4. For School Admins

A school admin's mobile menu mirrors a handful of the most time-sensitive tools from BasmaCP Admin (Chapter 3 of that manual), for managing your roster while away from a desk.

4.1 Managing teachers on the go

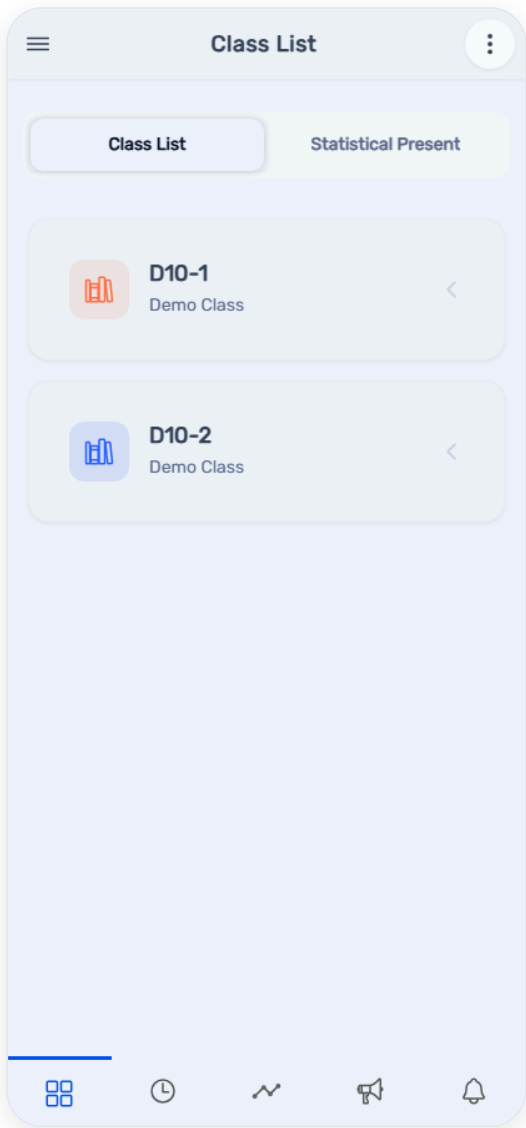

Fig 4.1 — Managing teachers.

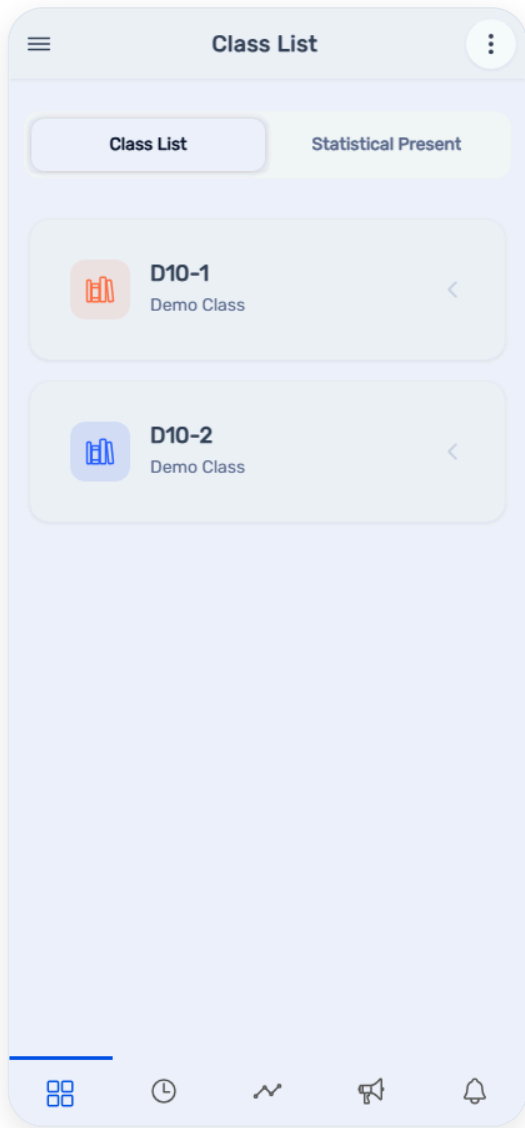

Fig 4.2 — Adding a teacher.

4.2 Managing students on the go

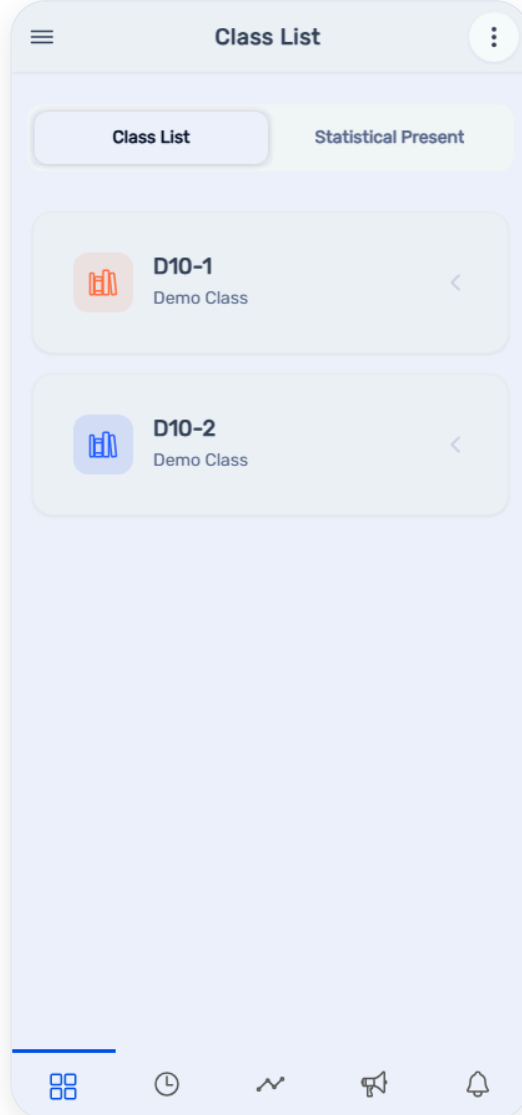

Fig 4.3 — Managing students.

4.3 Adding parents

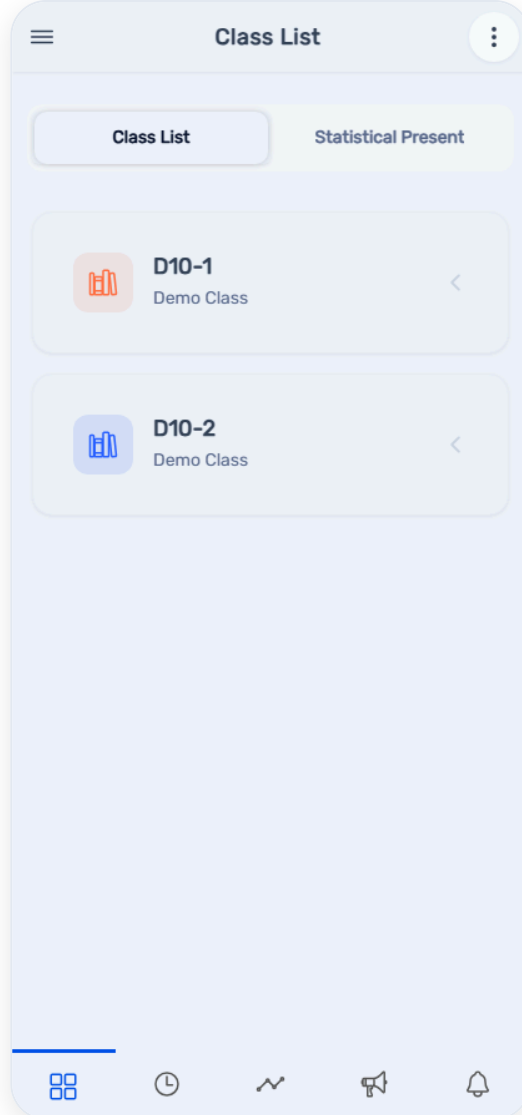

Fig 4.4 — Adding a parent.

4.4 Creating classes

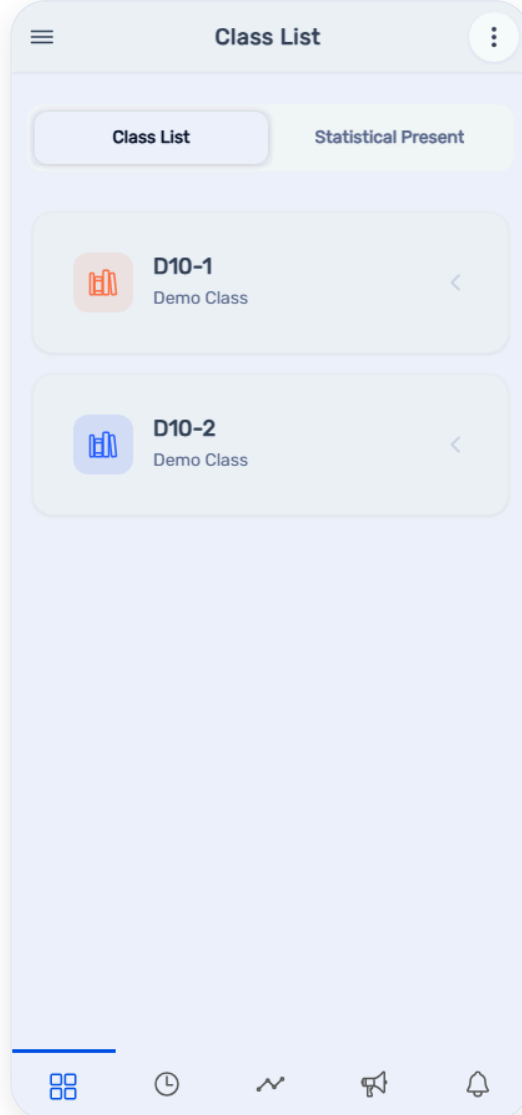

Fig 4.5 — Creating a class.

4.5 All users

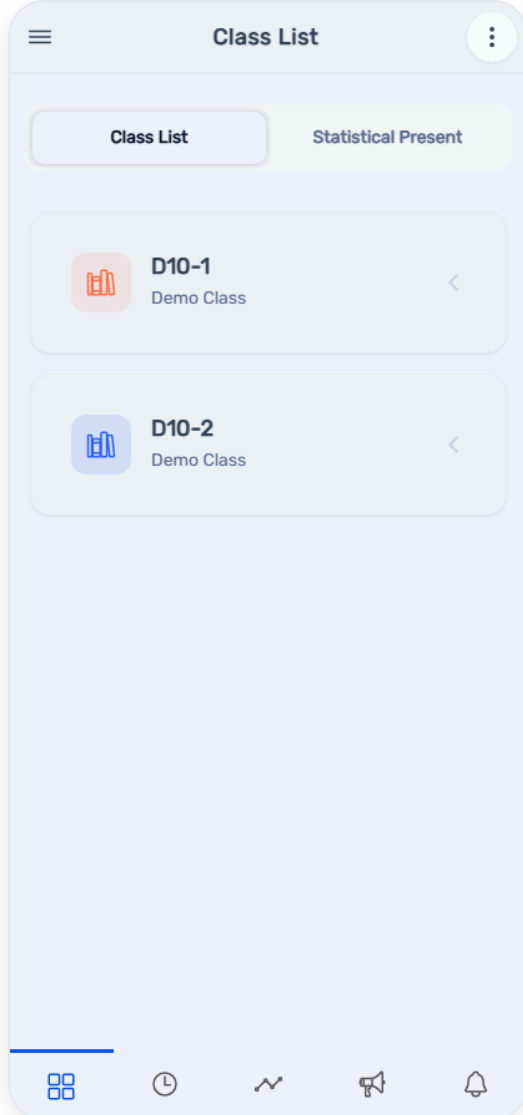

Fig 4.6 — All users.

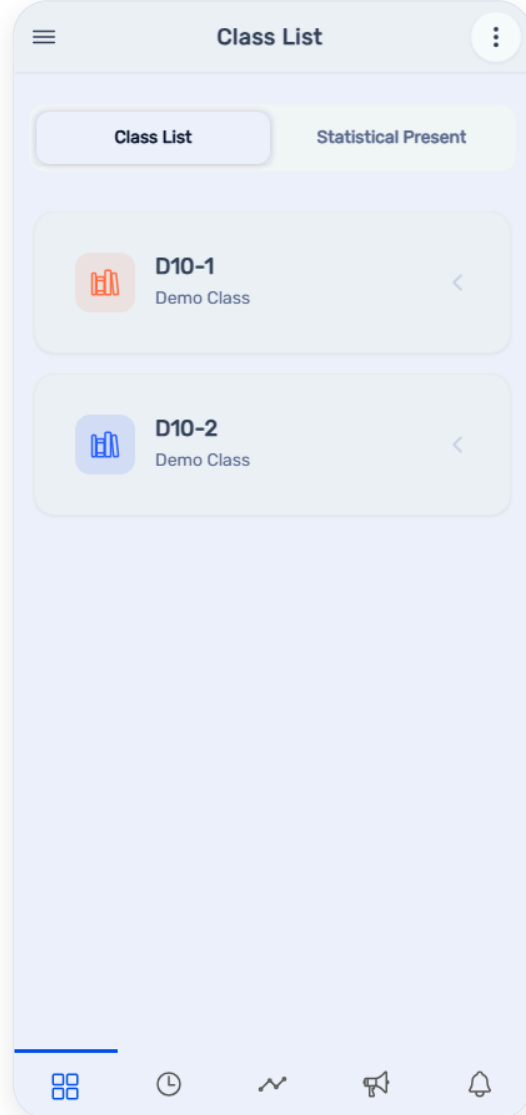

Fig 4.7 — Adding a user.

5. For Parents

5.1 Your children

The home screen for a parent lists every child linked to your account, with their current behavior level, title, and absence counts at a glance.

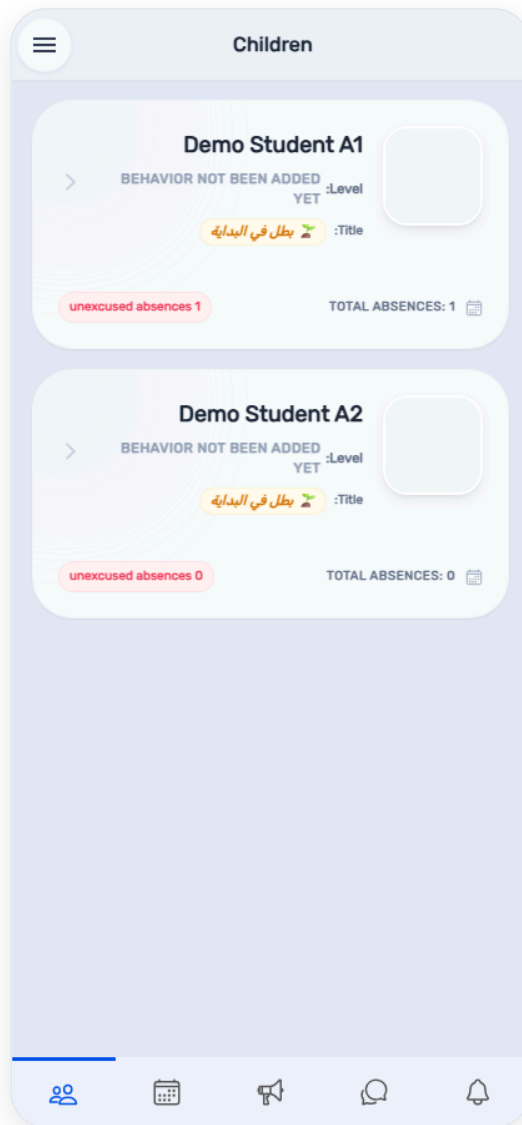

Fig 5.1 — Your children.

5.2 A child's profile

Select a child's card to open their full profile.

Fig 5.2 — A child's profile.

5.3 A child's class schedule

If you have more than one child, a picker lets you choose which child's schedule to view; with a single child it opens directly.

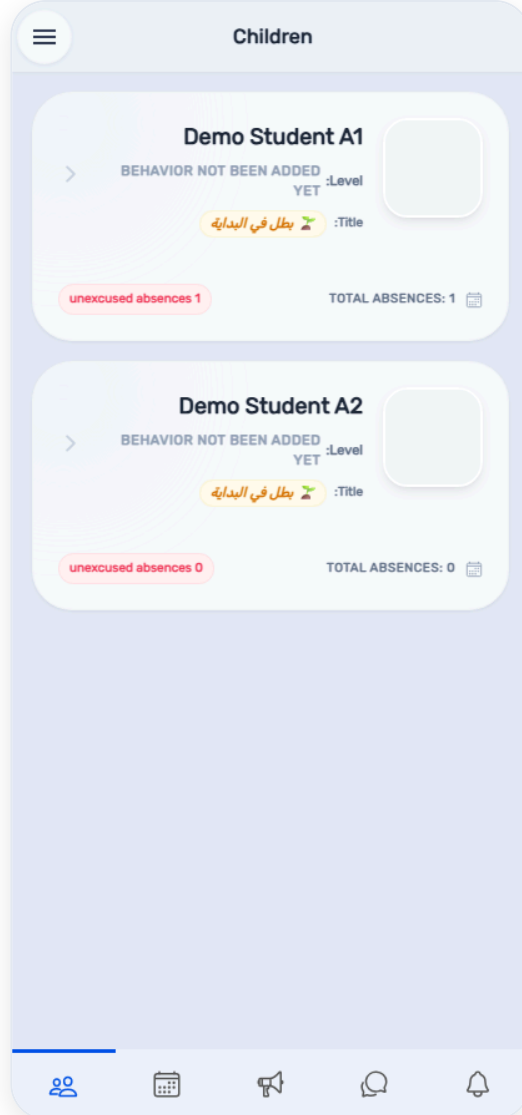

Fig 5.3 — A child's weekly class schedule.

5.4 Parent Connect (messaging staff)

A direct messaging channel with your child's school.

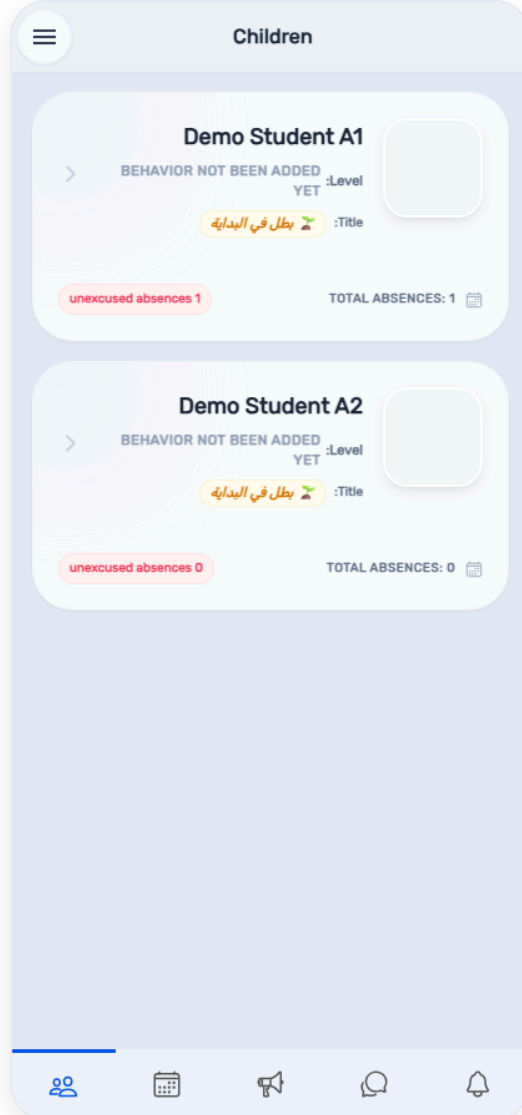

Fig 5.4 — Parent Connect.

5.5 News & notifications

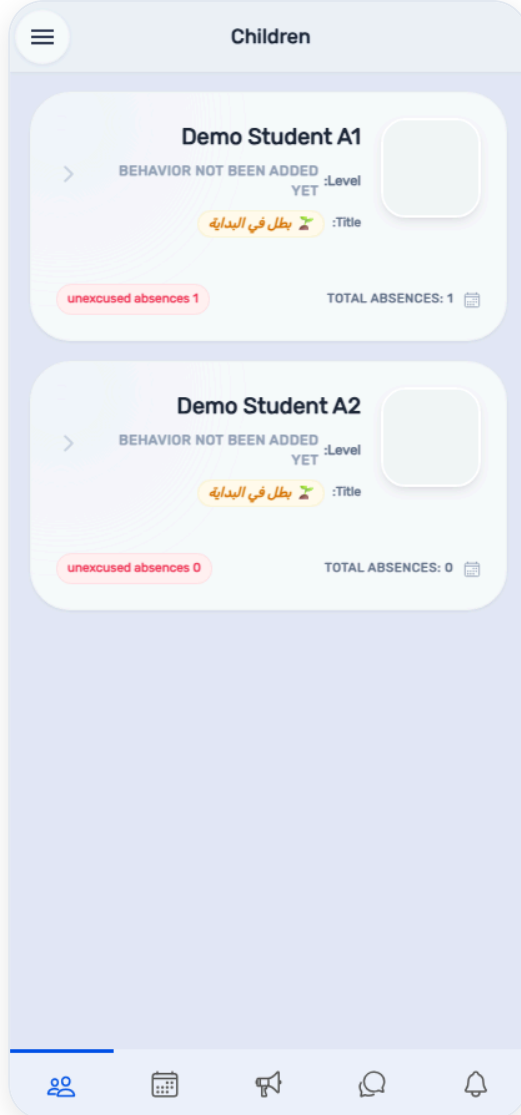

Fig 5.5 — News.

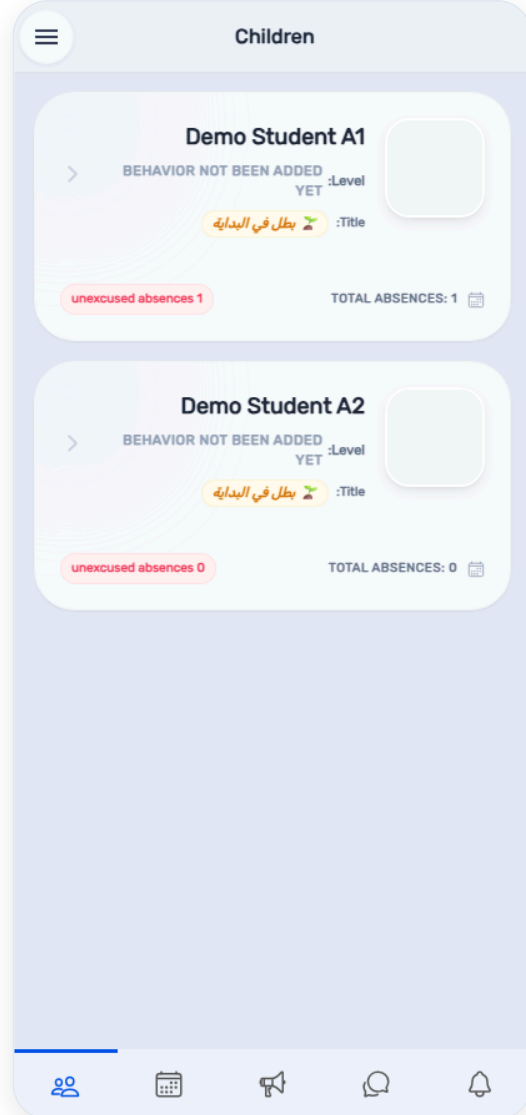

Fig 5.6 — Notifications.

5.6 Activate extra features

Review or activate extra features for your school, or redeem a voucher code your school has issued.

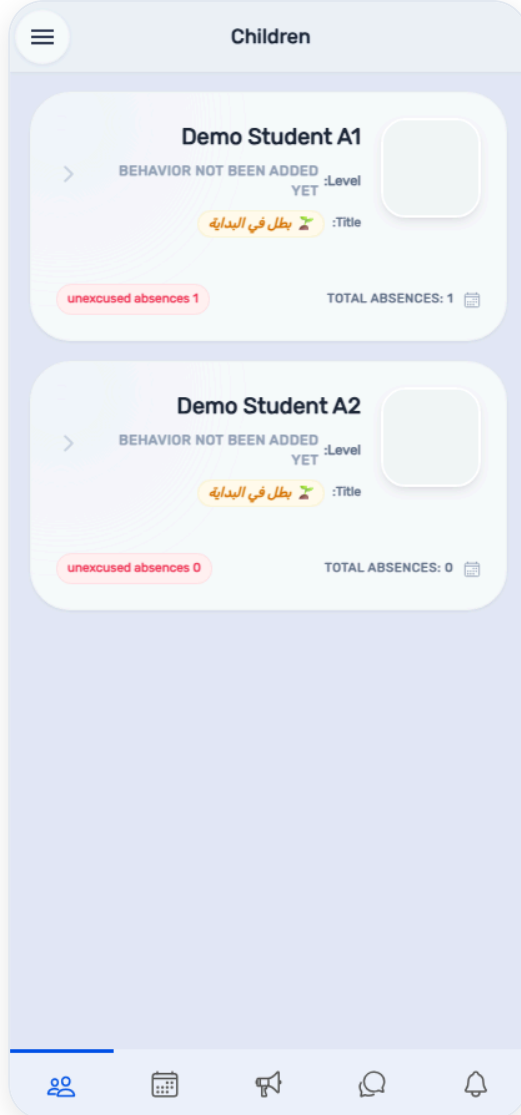

Fig 5.7 — Activate extra features.

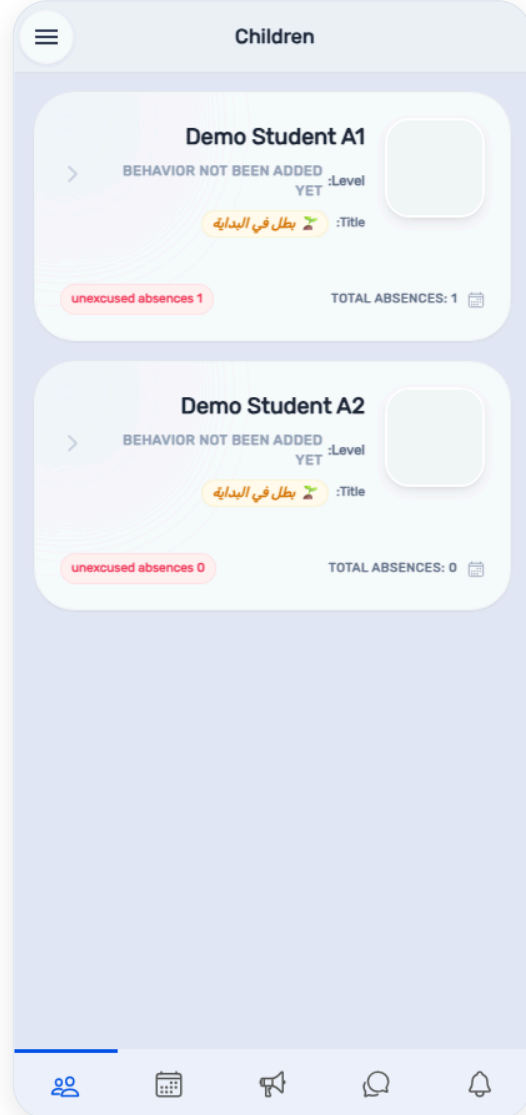

Fig 5.8 — Applying a voucher code.

6. For Students

6.1 My class schedule

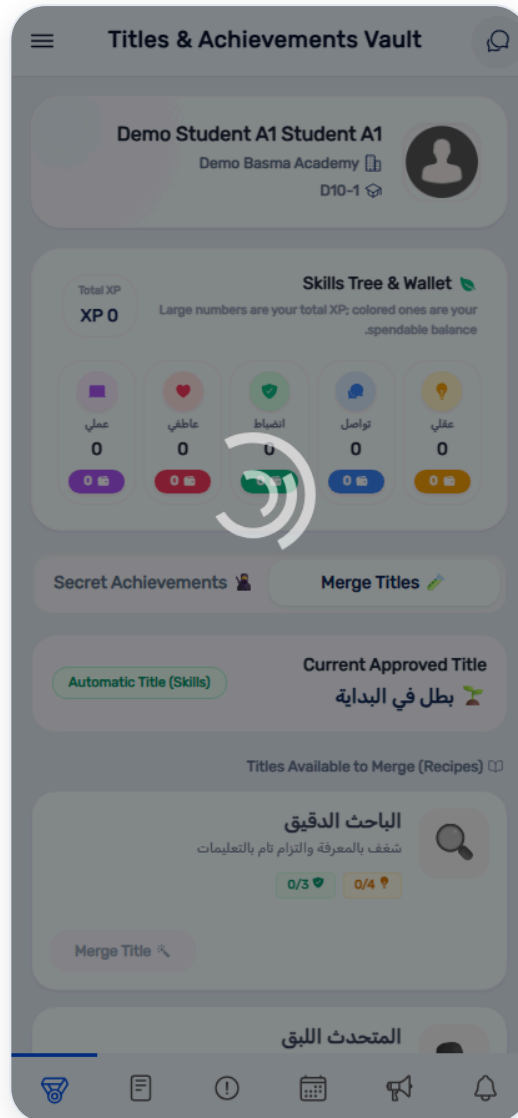

Fig 6.1 — My class schedule.

6.2 My titles & achievements

The gamified titles and streaks you have earned through the points system.

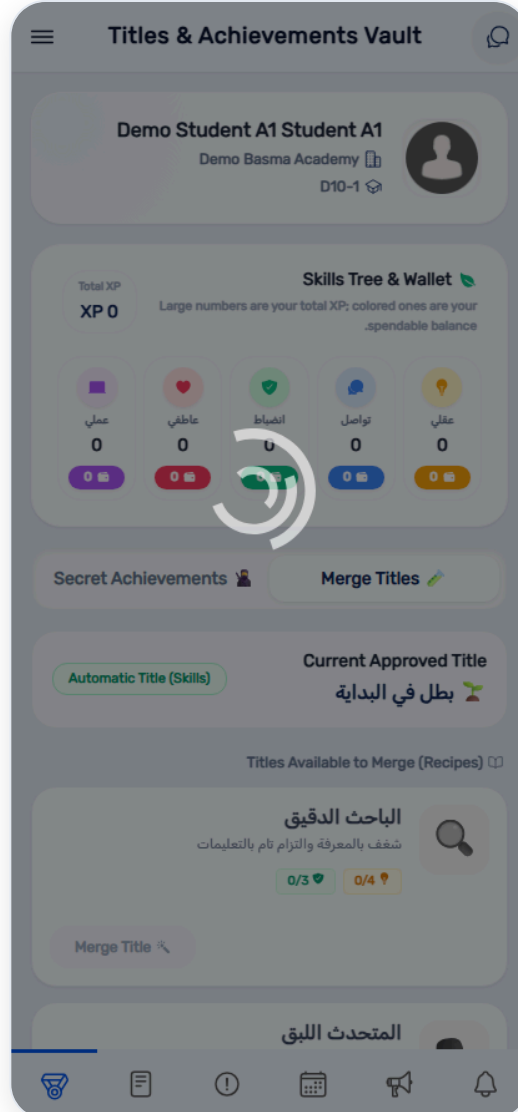

Fig 6.2 — My titles & achievements.

6.3 My notes

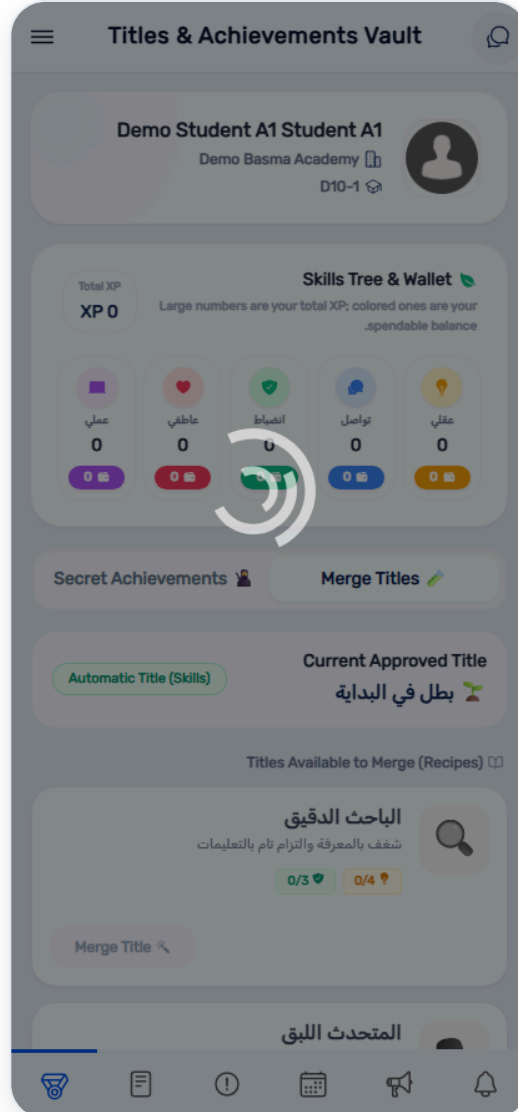

Fig 6.3 — My notes.

6.4 Warning report

Your own running absence tally against your school's warning thresholds.

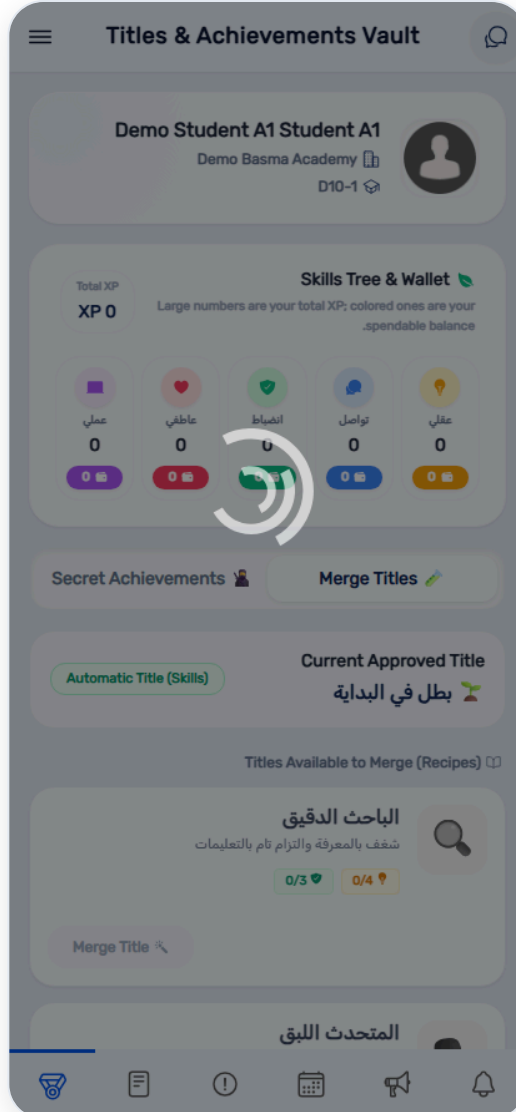

Fig 6.4 — Warning report.

6.5 News & notifications

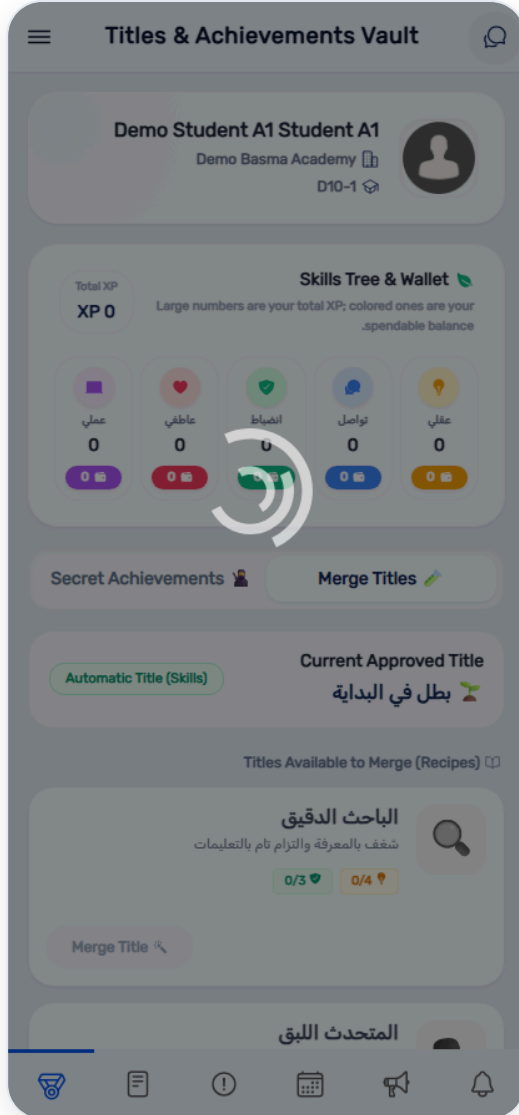

Fig 6.5 — News.

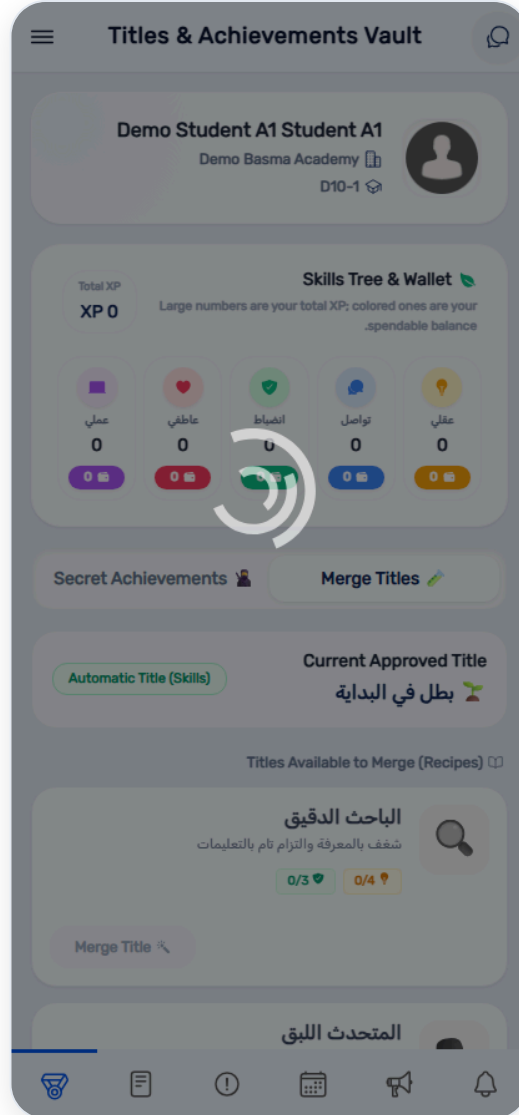

Fig 6.6 — Notifications.

7. Troubleshooting & FAQ

I can't sign in.

Double-check your username and password are typed exactly as issued. If you still can't sign in, contact your school's admin office — the app does not offer a self-service password reset.

My class list is empty.

You have not yet been assigned to a class roster. Contact your school's admin office to confirm your class assignment.

I accepted a coverage request by mistake.

Contact your school's admin office — they can reassign the period from BasmaCP Admin's Substitutes screen.

I don't see the language switcher.

It lives inside the side menu (the icon in the top corner of most screens), not on the sign-in page itself — sign in first, then switch.

A parent can't see one of their children.

Child-parent links are managed from BasmaCP Admin, not from the app itself — ask your school's admin office to confirm the link is set up correctly.

8. Glossary

Term	Meaning
Class list	A teacher or moderator's home screen, listing the classes they are assigned to.
Coverage request	A substitute-teaching assignment a teacher must accept or decline.
Invigilation duty	A fixed exam-proctoring assignment; unlike a coverage request, it needs no response.
Parent Connect	The in-app messaging channel between a parent and school staff.
Moderator	Supervisory staff who oversee multiple classes without being any one class's own subject teacher.
